Again Attacked—Battle  
Losses Put at 5,500.

(By United Press.)

CONSTITUTIONALIST HEAD-

QUARTERS, TORREON, Mexico,

April 3.—To the magnetic personality

of Francisco Villa, one-time bandit,

now Field Commander-in-Chief of the

combined forces of the Mexican Con-

stitutionalists, should go the whole

credit for the great victory just

achieved in the capture of this city,

according to his followers.

The fight for the possession of Tor-

reon itself was the greatest and most

desperate of the whole series of fierce

battles which marked the Torreon

campaign.

The city is completely in the pos-

session of the rebels and the last

soldier of Gen. Jose Refugio Velasco's

army of 10,000 is to-day either killed,

wounded, captured or in flight.

Gen. Velasco, the Federal com-

mander, with a comparatively small

bodyguard, escaped last night from

Canon del Guacharo, where he had

been entrenched since Tuesday. A

detachment of cavalry was rushed in

pursuit by Villa.

Gen. Villa at noon got news that a

Rebel column under Gen. Rosalio

Hernandez had crossed the fleeing

Federal army under Gen. Velasco,

at San Pedro, twenty-six miles south-

east of Torreon. A skirmish resulted

in which 100 Federals were slain and

123 captured.

5,500 FELL IN BATTLE FOR THE

CITY.

Villa to-day estimated his casualties

in the final fighting at 500 dead

and 1,500 wounded. He lost 200 killed

in Sunday night's fighting alone. The

Federal losses are placed at 1,000

killed and 2,500 wounded. At least 500

corpses were found in the streets

after the fight.

Asked by correspondents to-day to

estimate the total loss in the whole

campaign, Villa laughed and said:

"I cannot estimate it, but you will

not go far wrong if you say the Fed-

eral loss was total."

Ten thousand rebels, in a frenzy of

enthusiasm, fought all of Saturday.

WASHINGTON GETS

OFFICIAL REPORT

OF TORREON'S FALL

WASHINGTON, April 3.—The capture

of Torreon from the Federals by

Gen. Francisco Villa and his Con-

stitutionalist forces was officially re-

ported to the State Department late

to-day by George C. Carothers, Special

Consular Agent, who accompanied

Villa to Torreon. He said he would

forward details later.

Carothers also reported that the

Federals abandoned all their dead

and wounded and fled from Torreon

last night, presumably southward.

### CITY WILL ATTEMPT TO VACCINATE ALL AGAINST SMALLPOX

Dr. Goldwater of Board of  
Health Has Fears of Out-  
side Epidemics.

FEW FOUND IMMUNE.

Canvass of 12,000 Shows  
Eleven Years Lapsed Since  
Last Inoculation.

Dr. S. S. Goldwater, President of  
the Board of Health, recommends in  
a report made public to-day, that in  
view of the epidemic of smallpox in  
Niagara Falls and of the prevalence

of the disease in Pennsylvania and

the South, a special corps of vaccina-

tion inspectors should be organized

and put to work, because there has

been no general vaccination in New

York City for twelve years, and it is

well known that vaccination does not

protect beyond seven years.

It seems certain that Dr. Goldwater

has in mind a general vaccination

throughout the city. His report says:

"Infants and children under school

age should be vaccinated in order to

protect others as well as themselves.

Of late years, owing to the comparative

frequency of vaccination among

children, smallpox has become a dis-

ease of adults. We run the risk in

New York City of an outbreak among

the children, a reversion to the con-

ditions of bygone years, when they

were the first and heaviest sufferers."

Preliminary to these recommendations

Dr. Goldwater's report says:

A survey has been made of various

groups of the population of New York

City, in order to determine to what

extent the residents of New York City

are protected against smallpox by

vaccination.

"Inspectors and nurses visited every

home in typical city blocks, (a) ten-

ement house blocks, white, (b) ten-

ement house blocks, colored, and (c)

blocks of high-class apartment

houses, and obtained information as

to previous vaccination.

By letters and inspectors the desired

information was obtained from vari-

ous large department stores, insur-

ance companies and the three largest

charitable organizations in the city.

A vaccination census was also taken

of the employees of the New York

Public Library, the New York Stock

Exchange and the Bureau of In-

fectious Diseases of the Department of

Health of New York City.

"Information was thus obtained re-

garding 12,477 persons, a fair cross-

section of the population of the city.

Of these 12,096, or 96 per cent., had

been vaccinated, the average elapsed

time since the last successful vac-

cination being about 11 years. Fifty,

or 0.4 per cent., had had smallpox

and 378 or 3 per cent. had never been

vaccinated.

"These crude figures are, at first

sight, encouraging and seem to show

that New York City is fairly well

protected against an epidemic of

smallpox; certainly as well as any

probably better than any other large

city in the United States. This view

is borne out by the following facts:

"New York City, notwithstanding

its own population of nearly 5,000,000

and its large floating population from

all parts of the country, amounting

at times to 200,000, has been relatively

free from the disease for a number

of years."

UP-STATE MINERS RIOT.

Deputies Called to Halt Trouble

Near Highland Falls.

HIGHLAND FALLS, N. Y., April 3.—

Sheriff's deputies from this town were

placed on guard to-day at the De-

an mine, which is operated by the Hudson

Iron Ore Company, near here. The de-

puties were summoned to quell a strike

riot in the forest nearby. The Sheriff

at Newburgh also was notified and he

sent men to scene.

The paymaster being due at the

mines to-day, additional deputies were

sent to quell riot.

### DEATH OF BOXER WAS DUE TO PNEUMONIA, NOT BLOWS

Heavyweight Grant Collapsed Af-  
ter Bout With Johnny Eg-  
gers in Atlanta.

ATLANTA, Ga., April 3.—James  
Grant, heavyweight boxer, who had  
been unconscious since he collapsed

Tuesday night at the end of a ten-  
round bout here with John Eggers of  
New York, died early to-day. Physi-

cians said pneumonia caused his death,  
and that a minute examination of his  
body showed no marks of serious pun-

ishment.

Eggers, at liberty on bond, has been  
charged only with disorderly conduct.  
Grant came to Atlanta a year ago. He  
was twenty-one years old.

CAIRO, Egypt, April 3.—The condi-

tion of James Gordon Bennett, prop-

rietor of the New York Herald, who  
had been ill as a result of an attack  
of bronchitis, was said by the physi-

cians in attendance to be much  
better.

ball game between the Philadelphia

Americans and Philadelphia Nationals

scheduled for to-day was called off be-

cause of mild weather.

### MARY PHAGAN'S SLAYER KNOWN TO BURNS

Detective Working in Interest of  
Leo M. Frank, Convicted of  
Crime, Says He Can Name Man.

CHICAGO, April 3.—"I know who

the murderer of Mary Phagan is,"

said William J. Burns, the detective,

to-day on his return from a trip to  
Kansas City. "I can't say at this

time whether it is Leo M. Frank or

some one else; but I know his iden-

tity and can prove that he committed

the murder."

Frank was superintendent of the

National Pencil Company's factory in

Atlanta, Ga., and is under sentence to

die on April 17 for the murder of the

girl.

The detective was employed several

weeks ago by friends of the convicted

man to investigate the Phagan mys-

tery. His statement to-day was the

first information he had given as to

the result of his investigation. He

declined to say upon what grounds

he based his conclusions, but said

that they would be set forth in a re-

port which he would make soon to

the attorneys in the case.

Hearing on an extraordinary mo-

tion for a new trial is set for April

16, the day before that set for the

hanging of Frank. This motion au-

tomatically stays a prosecution.

The body of Detective Joseph Guarneri, slain last night in per-  
formance of his duty, was laid out to-day in the parlor room of the  
apartment above a little grocery store at No. 61 Sullivan street. It was  
in this room that he courted the woman who is now his widow, and it  
was there that his friends gathered to wish him and his bride all the luck  
and happiness in the world.

The funeral services will be held Monday in St. Anthony's Church,  
where Guarneri was married, and Commissioner McKay will send a  
battalion of Honor Legion men to escort the body of their comrade to its  
final resting place. Guarneri's name will go up on the tablet in the  
rotunda of Police Headquarters, making the eighth name to be placed  
there during the past twelve months. Seven of the eight were mur-  
dered as Guarneri was murdered last night. The other gave his life in  
trying to stop a runaway team.

EBBETS FIELD, BROOKLYN, N. Y., April 3.—Although the Dodgers

got off to a good start by capturing

the first of their five-game series with

Frank Chance's Highlanders the vic-

tory evidently did not serve as a mag-

net for the fans in this borough. When

the teams started the second tussle of

this afternoon there were not more

than 2,000 of the faithful rooters with-

in the big stadium. There was a sharp

chill in the air and the rooters had to

button up their heavy coats to keep

warm.
